NEW POCKET-SIZE BROCHURE DETAILS UNIQUE 100% COMPOSITE-MATERIAL RECESSED CFL DOWNLIGHTS FROM NUTECH

New York, NY, October, 2006 — NuTech Lighting Corporation, the innovative manufacturer of high-performance, ENERGY STAR listed, compact fluorescent downlighting, has announced availability of a color, pocket-size tri-fold brochure detailing this patented new product line.

The handy six-page brochure shows in actual product photographs and cutaways why this new type of recessed ceiling downlight makes traditional welded or bolted steel and aluminum downlights obsolete.

The brochure further indicates how this low-profile, more unitized downlight meets all lighting requirements, whether straight down, angled or wall washing; all ceiling conditions, whether low plenum, insulated or fire rated; sheetrock or acoustical grid; any commercial, institutional or residential application, including California Title 24 energy-saving requirements. Units are UL, CUL and UL Marine listed, suitable for dry, damp or wet locations.

Copies of the new pocket-size recessed CFL downlights brochure are available by contacting NuTech Lighting Corp., 608 Fifth Avenue, Suite 303, New York, New York 10020. Telephone: (212) 541-7397. Fax: (212) 459-0880. E-mail: information@nutechlighting.com. Learn more about NuTech Lighting at: www.nutechlighting.com.
